Course Outcomes of BA.ECO. (Hons.)

BA.ECO. (Hons.) Semester I

BAECO 101- Principles of Microeconomics

• To provide basic understanding of micro economic concepts.
• To understand behavior of economic agent-consumer, producer, and factor Owner.
• To understand price fluctuations in the market.
• To deal with the concepts of consumer behavior, production, market, factor pricing and welfare Economics.

BAECO 103- Statistical Methods - I

• To estimate the mean and standard deviation of the marginal distribution of the response variable and use this information to inform a business decision.
• To make them aware about an interval estimates for the mean of the conditional distribution of the response variable given a value for the predictor and use this information to inform a business decision.
• Student will able to understand and appreciate the need to solve a variety of business related problems using a systematic approach involving accepted statistical techniques.

BAECO 105- Mathematics for Economics - I

• To make the student acquaint with the understanding of basic mathematical techniques.
• Understand the operation of Logarithms.
• Analyze the linear function.
• Recognize the matrix Algebra.

BAECO 107- Business English - I

• To develop improve various skills like communication, reading, listing, note making, persuasive speaking, body language and gestures.
• To understand the process of e-mail communication and minutes of meeting.
• To make aware about barriers to communication with ethical context.
• To make effective and impressive communication.
• Better presentation and communication using proper body language.
BA.ECO. (Hons.) Semester II

BAECO 102- Principles of Macro Economics
- To familiarize themselves with various issues and concepts in introductory macroeconomics.
- To understand theoretical aspects of Macro Economics.
- To understand systems facts and the latest theoretical developments in Macro Economics.
- Describe the National Income Accounting.

BAECO 104 - Statistical Methods - II
- To Estimate the mean and standard deviation of the marginal distribution of the response variable and use this information to inform a business decision.
- To make them aware about an interval estimates for the mean of the conditional distribution of the response variable given a value for the predictor and use this information to inform a business decision.
- Student will able to Understand and appreciate the need to solve a variety of business related problems using a systematic approach involving accepted statistical techniques.

BAECO 106- Mathematics for Economics - II
- Introduce the students 10 different optimization techniques required for fundamental analysis of variables.
- Describe the mathematical derivatives of cost and revenue functions.
- Write down the maximization, minimization of cost and profit.
- Understand the optimization.

BAECO 108- Business English - II
- To introduce students to the conventions of business communication through select works of literature.
- Familiarize students with the processes of communication. Comprehension and language usage.
- Encouraging the students to critically engage with literary texts.

BA.ECO. (Hons.) Semester III

BAECO 201- Intermediate Micro Economics-I
- To gain comprehensive understanding of concepts and applications of Consumer Choice and Production Decision.
- To understand the classification of market.
- To Describe the Price and Output determination of Firms and Industry.
- To describe the classical and Keynesian theories of Interest.
- To Understand the theories of profit
BAECO 203- Intermediate Macro Economics-I
- To understand the concept of Monetary and Fiscal Policies.
- To understand the role of expectation in determination of Macroeconomic Variables.
- To understand the theories of Employment.
- To Describe the National Income Accounting

BAECO 205- History of Economic Thought
- To understand various schools of Economic Thoughts.
- To understand Production and Distribution role of the Government.
- Identify the Marxian Economic theories.
- Describe the classical theory of Value and Capital.
- Recognize the Ricardian Economic theories

BAECO 207- Introduction to Econometrics
- Understanding in quantitative techniques with in economics.
- Role of statistics in economics.
- to equip the students with primary statistical and mathematical tools for analyzing economic problems

BAECO 209- Functional Hindi-I
- To take up language as a subject in Economics.

BA.ECO. (Hons.) Semester IV

BAECO 202- Intermediate Micro Economics-II
- To Study the concept of General Equilibrium Framework
- To Study Different Market structures.
- To provide an Introduction to Game theory

BAECO 204- Intermediate Macro Economics-II
- To familiarize the students with different concept of Macroeconomic Variables.
- To understand the determinants and Impact Macroeconomic Variables.
- To Understand the Concept of Open Economy.
- To understand the various models of Growth.

BAECO 206- Introduction to Development Economics
- To enable the students to understand the theories and strategies of growth and development.
- To impart knowledge about the issues relating to sustainable development, environment protection and pollution control measures.
BAECO 208- Monetary Economics
• To familiarize the students with various concept of Financial Markets.
• To understand the determinants and Applications of Economic Theory in Monetary Economics.
• To understand and describe the Quantity theories of money.
• To understand the financial reforms.

BAECO 210- Functional Hindi-II
• To take up language as a subject in Economics.

BA.ECO. (Hons.) Semester V

BAECO 301- International Economics
• To familiarize the students with various issues and concepts in International Economics.
• Develop Understanding of theories of international trade.
• To examine the impact of the trade policies on the dynamic gains.

BAECO 303- Public Economics-I
• To find Nature and scope of public economics.
• To analyze meaning and importance of federalism.
• To understand role of state in fostering the economic activities via budget and fiscal policies.
• It enables the students to understand the various issues between central and State Government.

BAECO 305- Economic Development of India-I
• To enable the students to understand the theories and strategies of growth and development.
• To impart knowledge about the issues relating to sustainable development, environment protection and pollution control measures.

BAECO 311- Economics of Micro Finance
• To familiarize the students with objectives, achievements and challenges of Micro Finance.
• To understand changing role of the financial sector of the economy.
• To understand financial sector reforms in most of the countries.

BAECO 313- Agriculture Economics
• To understand the various sources of Agriculture Finance.
• To Understand the Agriculture Labour.
• To understand Agriculture and Economic Development
BA.ECO. (Hons.) Semester VI

BAECO 302- Environmental Economics
- To understand the Environmental and Ecology.
- To understand and identify the degradation of environmental quality.
- To understand the Global Warming.
- To understand the Sustainable Development.

BAECO 304- Public Economics-II
- To find Nature and scope of public economics.
- To analyze meaning and importance of federalism.
- To understand role of state in fostering the economic activities via budget and fiscal policies.
- It enables the students to understand the various issues between central and State Government.

BAECO 306- Economic Development of India-II
- To enable the students to understand the theories and strategies of growth and development.
- To impart knowledge about the issues relating to sustainable development, environment protection and pollution control measures.

BAECO 308- Topics in Macro Finance
- To understand the theories of Employment.
- To understand the National Income Accounting.
- To Study the importance of National Income Analysis.
- To identify the scope of Macro Economics.

BAECO 310- Intl. Trade MTO
- To Study various issues related to Multilateral Organizations.
- To Identify the India’s Foreign Trade Policy.
- To Understand the International Trade.
- To Understand the Balance of Payments.
